

Online Marketing & Performance Growth

At **BloomTech Corporation**, we move beyond "likes" and "impressions" to deliver measurable ROI. By combining high-level technical SEO with aggressive digital marketing strategies, we ensure your business doesn't just rank—it dominates.

Our Core Growth Pillars

We balance the technical and the creative to build a marketing engine that scales with your ambition.

1. Technical SEO & Core Web Vitals

Search engines favor performance. Leveraging our **Custom Server & Infrastructure** expertise, we optimize your site's backend for:

- **Speed:** Achieving sub-second load times to improve rankings.
- **Architecture:** Proper schema markup and flawless mobile indexing.
- **Stability:** Hosting your digital presence on enterprise-grade server environments.

2. Strategic Content Marketing

We use **Advanced AI (Anthropic/Claude)** and deep industry research to produce high-authority content.

- **Thought Leadership:** Establishing your brand through whitepapers, case studies, and high-conversion landing pages.
- **Human-Centric:** We write for humans first, ensuring messaging resonates with your specific target audience.

3. Precision Paid Acquisition (PPC)

Stop wasting ad spend on irrelevant traffic. We treat your budget like a financial asset.

- **Targeted Campaigns:** Managing Google Ads and Meta campaigns using "Negative Keyword" filtering.
- **A/B Testing:** Continuous split testing to achieve the lowest Cost Per Acquisition (CPA) possible.

4. Specialized E-Commerce Growth

Optimized for **Shopify** and high-volume digital storefronts.

- **Full-Funnel Strategy:** Optimizing product pages for "Buyer Intent" keywords.

- **Automation:** Setting up abandoned cart recovery and high-ROI retargeting campaigns.

The 4-Phase Growth Lifecycle

1. **Deep Audit & Baseline:** Analyzing your current traffic, technical debt, and competitor positioning.
2. **Infrastructure Hardening:** Fixing technical SEO issues and speed bottlenecks before driving new traffic.
3. **Campaign Deployment:** Launching high-authority content and targeted ad sets.
4. **Agile Optimization:** Reviewing data weekly to double down on what works and cut what doesn't.
